Media Arts and Sciences

AN INTERDEPARTMENTAL MAJOR

Co-Directors: Irish, Metaxas

The Departments of Art and Computer Science offer an interdepartmental major in media arts and sciences that explores the artistic, cultural and scientific applications within the context of new media technologies. The program focuses on media production that balances artistic sensibility with analytical reasoning within the rich tradition of the liberal arts environment. Areas of study include digital imaging and design; web-connected database architectures; three-dimensional visualization and modeling; digital composition in audio/video; analog print and photographic processes; computer graphics and animation; human-computer interaction; programming for networked environments.

A major in media arts and sciences requires 12 units of course work, at least eight of which must be above the 100-level and two of which must be at the 300-level other than 350 or 360. Flexibility has been built into the major to allow students the ability to adapt their course of study in relation to their interests, by choosing an emphasis either in media sciences or in media arts. The major starts with three introductory courses, at least five courses in the area of concentration and at least two courses outside the area of concentration. In addition to other courses at Wellesley, students can take courses from MIT’s media lab or comparative media studies.

Requirements for the major are listed below. A Frequently Asked Questions (FAQ) section can be found at the program’s web site: http://www.wellesley.edu/MAS/ along with a spreadsheet to help students plan their major.

1. Three required introductory courses, one each from studio art, art history and computer science: ARTH 101 (Introduction to the History of Art Part II: Renaissance to the Present), ARTS 109 (Basic Two-Dimensional Design) or ARTS 108 (Photography I), and CS 110 (Computer Science and the Internet).

2. At least two required art courses (at least five required for emphasis in media arts) from the following: ARTS 165 (Introduction to Video Production), ARTS 219 (Introductory Print Methods: Lithography/Monotype) or ARTS 220 (Introductory Print Methods: Intaglio/Relief), ARTS 221 (Digital Imaging), ARTS 225 (Dynamic Interface Design), ARTS 260 (Moving Image Studio), ARTS 265 (Intermediate Video Production) or ARTS 208 (Photography II), ARTS 313 (Virtual Form), ARTS 317 (Seminar. Topics in the Visual Arts), ARTS 320 (Architectonics and Installation), MUS 275 Computer Music: Synthesis Techniques and Compositional Practice.

3. At least two required computer science courses (at least five required for concentration in media sciences) from the following: CS 111 (Computer Programming and Problem Solving), CS 215 (Multimedia Design and Programming), CS 230 (Data Structures), CS 231 (Fundamental Algorithms), CS 242 (Computer Networks), CS 304 (Databases with Web Interfaces), CS 307 (Computer Graphics).

As of 4/26/2006
4. At least one media culture course is recommended from the following: ARTH 225 (Modern Art Since 1945), ARTH 226 (History of Photography: From Invention to Advertising Age), ARTH 291 (Persuasive Images), CAMS 175 (Introduction to Cinema and Media Studies), SOC 216 (Sociology of Mass Media and Communications). Majors are also encouraged to take an advanced media production course (e.g. an individual study).

Students may receive a maximum of one unit of college credit for a score of 5 on the Computer Science A or AB Advanced Placement Exam. This unit can count towards the Media Arts and Sciences major.

**Honors:** The MAS thesis offers a year-long opportunity to develop independent research and production with honors. Students interested in proposing a thesis must have a minimum 3.5 GPA in the major, and the support of a faculty advisor in the Art or CS departments. An interdepartmental review will occur at the end of the fall semester, to determine whether the student should continue her project as a 370 in the Spring and convey its decision to the student by December 20th. In a case where it is recommended that the Senior Thesis not be continued into the second semester, a student would receive credit for 360 work on the completion of a schedule of work previously agreed to between the thesis advisor and the student.

The thesis proposal should be discussed with the primary faculty advisor during the spring prior to senior year. Proposals for thesis projects must be submitted in writing, detailing the scope for the project, research methodology, project timeline, and must be accompanied by an electronic portfolio of at least 4 MAS projects. Proposals are due on August 25 before the beginning of the student’s senior year.

**MAS 250 Research or Individual Study**
Prerequisite: Open to all students by permission.
Distribution: None
Semester: Fall, Spring  Unit: 1.0

**MAS 250H Research or Individual Study**
Prerequisite: Open to all students by permission.
Distribution: None
Semester: Fall, Spring  Unit: 0.5

**MAS 350 Research or Individual Study**
Prerequisites: Open to juniors and seniors by permission
Distribution: None
Semester: Fall, Spring  Unit: 1.0

**MAS 350H Research or Individual Study**
Prerequisites: Open to juniors and seniors by permission
Distribution: None
Semester: Fall, Spring  Unit: 0.5

As of 4/26/2006
MAS 360 Senior Thesis Research
Prerequisites: By permission of department. See Academic Distinctions
Distribution: None
Semester: Fall, Spring Unit: 1.0

MAS 370 Senior Thesis
Prerequisites: 360
Distribution: None
Semester: Fall, Spring Unit: 1.0

Related Courses

For Credit Toward the Major
The courses listed below are representative of Wellesley and MIT courses that emphasize topics related to the media arts and sciences major. Students may include courses not listed below in their major with permission of the program directors.

ANTH 232 Anthropology of the Media
CAMS 231 Film as Art
CS 115/PHYS 115 Robotic Design Studio
CS 210 The Dynamic Web
CS 342 Computer Security
ENG 204 The Art of Screenwriting
PHIL 203 Philosophy of Art
PHYS 115/CS 115 Robotic Design Studio
PSYC 337 Seminar. The Psychology of Creativity
SOC 215 Sociology of Popular Culture

MIT Courses
The MIT Media Lab and the MIT Comparative Media Studies Program offer a large variety of courses that may be appropriate for a media arts and sciences major. These offerings vary per semester; please consult the MIT catalog at http://student.mit.edu/catalog/mMASa.html and http://student.mit.edu/catalog/mCMSa.html. Below are sample Media Lab courses offered regularly.

MAS.110 Fundamentals of Computational Media Design
MAS.111 Introduction to Doing Research in Media Arts and Sciences
MAS.160 Signals, Systems and Information for Media Technology
MAS.642J Writing for Computer Performance

As of 4/26/2006
Olin Courses

The Olin College of Engineering offers the following courses that may be appropriate for a media arts and sciences major.

**ENGR 2250** User Oriented Collaborative Design

**ENGR 3220** Human Factors and Interaction Design
